

dream on!

customer comments

"The pads were my New Year life saver. I split with my boyfriend and went on a bender, was still downing the g&t's at 4.30am! popped the pads on before collapsing in bed. Woke up on New Years Day like a new woman. No hangover! This alone has converted all the girls that had seen and joined in my antics the night before ... I've been a convert and an evangelist for the toxic cause ever since!"

"My skin looks great even after just one use. I've told all the girls at work already this morning about them"

"I love it now and I do it every two - three weeks. Is amazing the sleep that I get"

"The first time I used them, I couldn't wait to check how toxic I was in the morning -it was disgraceful... blackgreengooeysoupykindastuff... anyway it smelled like an ashtray as well so I gathered it must be all the toxins from smoking and I haven't touched a smoke since"

"I've been sick since before christmas and taking all sorts of pills and tonics.....my system is totally messed up and was feeling run down all the time, a couple of day into using the dream on detox pads and I almost feel normal again....."

"Picked up the sample at billion dollar babes in Dublin as they were much needed from excess partying and couldn't believe the colour of them...promise to be good from now on...until Friday!"

"Before using the detox pads I was constantly tired, couldn't concentrate and had trouble sleeping. Since using them my sleep has improved, I awake refreshed, I have no trouble concentrating on my degree course, and I feel better than I've felt for years"

"The pads were easy to use, although very sticky! My 18 year old thought I was mad! But as I said if it helps me feel better then so what"
